

敬啟者：

沙田至中環綫土質勘探工程

香港特區政府於二零零八年三月要求港鐵公司展開沙田至中環綫的進一步規劃和設計工作。爲了收集準確的土質資料以進行沙中綫的詳細設計，須展開土質勘探工程，其中包括鑽探及探井挖掘。

港鐵公司之承建商香港土力混凝土工程有限公司將由七月二日開始，於南角道進行鑽探及探坑挖掘工作，工程需時約三星期。爲配合勘探工程，由七月二至三十一日，部分南角道將實施臨時交通管理措施。承建商將會架設圍欄以分隔工地及行人道。施工日期可能會因應工程實際進度而有所調整，屆時港鐵駐工地工程師及承建商代表會另行通知受影響業戶。港鐵公司及承建商會密切監督施工，並採取適當措施，確保將影響減至最低。

港鐵公司的工程人員和承建商代表將會在施工前再作聯絡，解釋有關工程。如有任何查詢，請致電駐工地工程師彭裕威先生，電話：9077 5851 或港鐵工程熱綫：2993 3333。

Dear residents,

MTR Shatin to Central Link - Ground Investigation

In March 2008, the Government asked the MTR Corporation to proceed with further planning and design of the Shatin to Central Link. In order to gather the needed geotechnical information for the detailed design of the Shatin to Central Link, ground investigation works, including borehole/trial pit works, will be conducted shortly.

Starting from 2 July 2010, our contractor, Geotechnics & Concrete Engineering (HK) Limited will conduct borehole/trial pit works in the pedestrian walkway at Nam Kok Road which is expected to last for 3 weeks. Temporary traffic arrangement will be implemented at Nam Kok Road from 2 to 31 July 2010. The contractor will set up barriers to separate the works area from the pedestrian walkway. The works schedule might be adjusted according to the actual progress. Our on site engineer and contractor will separately notify concerned residents. The Corporation and the contractor will monitor the works closely, and will take appropriate measures to minimize any inconvenience it may cause.

Engineers from the MTR Corporation and representatives from the contractor will contact you before commencement of works to explain in more details. For any enquiries, you may call our on site engineer Mr. Marco Pang at 9077 5851 or MTR Projects Hotline at 2993 3333.

Yours sincerely,

Prudence Chan

Public Relations Manager - Projects and Property
