**MTR Corporation Welcomes the establishment of
the Expert Adviser Team on the SCL Project**

MTR Corporation welcomes the establishment of an Expert Adviser Team by the Government today to conduct a review of the project management system and recommend improvement measures on the Shatin to Central Link (“SCL”) project. The Corporation will fully cooperate with the Expert Adviser Team in its review.

“The three members of the Expert Adviser Team are highly respected and seasoned professionals in the engineering and construction industry. We look forward to working with them in taking forward the SCL project and to ensure that safety and quality of construction are upheld at all times,” said Mr Lincoln Leong, the Chief Executive Officer of MTR Corporation.

Safety has always been the top priority of the Corporation which has successfully delivered many railway projects in the past. Going forward, the Corporation will continue to fully cooperate with all relevant government departments with a view to delivering new railway projects to provide efficient and convenient services for the travelling public in Hong Kong.
